# Misc MUD + Admin

▶ Github classroom teams is broken at the moment. See Canvas for our PS3 workaround ("PS3 and PS4 Github classroom patch"). Hope to have it fixed for remaining problem sets.

▶ You will have to create your own Github repo for PS3. See Canvas announcement from yesterday ("Clarification…")

▶ What is a good set of reference material to use after class? Textbooks!

▶ What are expectations for calendar/time allocation?
  ▶ Weekly PS until Thanksgiving (last one due 11/16)

  ▶ Final project akin to an extended, less structured PS (present in class 12/2-12/5). All materials in by 12/6.

  ▶ Reading period: study for final (12/12)

# git

▶ How do I handle merge conflicts? *covered today*

▶ Command line cheatsheet (link): `pwd`, `cd`, etc…

▶ Tech setup

　　▶ By now, you should have command line git installed

　　▶ If you want to get ahead for the do-pair-share, fork
　　https://github.com/uchicago-harris-dap/merge_example (link) on github.com and
　　then clone the repo to your computer

# Getting ahead of today's do-pair-share

1. On github.com, fork https://github.com/uchicago-harris-dap/merge_example (link)
   - ▶ Importantly: *uncheck "fork main only"**

2. Clone your fork to local - can use Github Desktop for now
